OBJECTIVE

Technical-focused Computer Science student and MERN stack developer (2026 Batch) aspiring to the **Specialist Programmer** role at Infosys. Expertise in full-stack engineering, GenAI integration, and large-scale data analysis. Committed to writing clean, scalable code and solving complex algorithmic challenges.

TECHNICAL SKILLS

- **Languages:** Java, Python, C++, SQL (MySQL), JavaScript (ES6+), HTML5, CSS3.
- **Frameworks/Libraries:** React.js, Node.js, Express.js, Streamlit, Spring Boot (Basic).
- **Tools & Platforms:** Git/GitHub, Docker, Google Cloud Platform (Vertex AI, BigQuery), VS Code.
- **Core Concepts:** Data Structures & Algorithms (DSA), DBMS, OOPs, SOLID Principles, Agile Methodology.

EDUCATION

Miracle Educational Institutions, Bhogapuram, AP | **Expected April 2026**

- **Bachelor of Technology in Computer Science | CGPA: 8.0/10.0**
- *Relevant Coursework:* Design & Analysis of Algorithms, Database Management, Operating Systems.

TECHNICAL PROJECTS :

- **Gemini Pro Financial Decoder | GenAI & Python :**
Developed a RAG-based application to decode financial jargon; optimized search performance by **95%** using Google Vertex AI.
- **Walmart Retail Data Analytics | SQL & Python :**
Engineered complex SQL scripts to analyze seasonal sales trends; implemented **STR_TO_DATE** transformations for time-series forecasting.
- **Home Inventory & Warranty Tracker | React.js & MySQL :**
Built a full-stack system featuring real-time status updates and **React state-managed** notification logic.

EXPERIENCE

Google Cloud Generative AI Intern | SmartBridge | *Dec 2025 – Feb 2026*

- Earned **22 badges** in GenAI for Developers and Gemini for Google Cloud.
- Built production-scale RAG (Retrieval-Augmented Generation) workflows using **Vertex AI** and **BigQuery**.
- Fine-tuned Large Language Models (LLMs) for document inspection and automated data extraction.

LEADERSHIP & CERTIFICATIONS

- **Certifications:** Infosys Springboard (SQL, PowerBI, Big Data Analytics).
- **Vagnoore Private Company** : Internship of 3 Months In Data Analytics (Excel , Python , SQL , PowerBi)
- **Leadership:** Team Lead for College Final Year Project; managed a 4-member team using Agile sprints.
- **Soft Skills:** Technical Content Writing, Analytical Problem Solving, 24/7 Adaptability.
